USB IN PRINT

TAKING USB'S TO THE NEXT LEVEL

Flash memory storage device fused into print, This unique product is designed to allow you to present your digital media content within print and packaging. Now, your printed brochure can contain a pop-out USB with 4GB, 8GB of storage.

Unlike conventional 'widget' USBs that are typically made of plastic, metal or wood, you now have the option of including printed card for a truly physical-digital solution.

Great for contests, marketing, direct mail, presentations, education, healthcare, product launches or wherever your imagination takes you. A fully customizable paper housing that holds a USB.

LEAD TIME 12-14 WORKING DAYS
